SCENIC MAINE ART

About the Artist

Danielle (Losier) Lehoux was born and raised in Cape Neddick, Maine. Her passion is creating graphic artwork similar to a block print style that is loosely inspired by the vintage "See America" posters of the National Parks. Being a native Mainer (8th generation),

Danielle loves her home state and enjoys creating artwork that reflects the beauty of her surroundings. Her favorite subjects are birds and lighthouses.

Danielle always loved to create art and spent many hours of her youth drawing with markers and pastels, shaping clay into pots, dabbling in printmaking, and painting. During college, she started exploring graphic design and found that working on a computer really spoke to her for many reasons. This medium quickly became her favorite way to create art.

Danielle uses a stylus as her "paintbrush" and her computer screen as her "canvas" as she creates her digital artwork. Similar to traditional painting, she works in layers, starting with the background then moving forward, creating shapes that, when viewed together make up the entire finished piece.

About Lehoux Art

Lehoux Art was established in 2015 when the owner, Danielle Lehoux, decided to share her passion for art with those around her.

The business began as a part-time venture, and quickly grew busy enough to transition to full-time in 2018. Products can now be found in stores in Maine, New Hampshire, Florida, Massachusetts, and Connecticut.

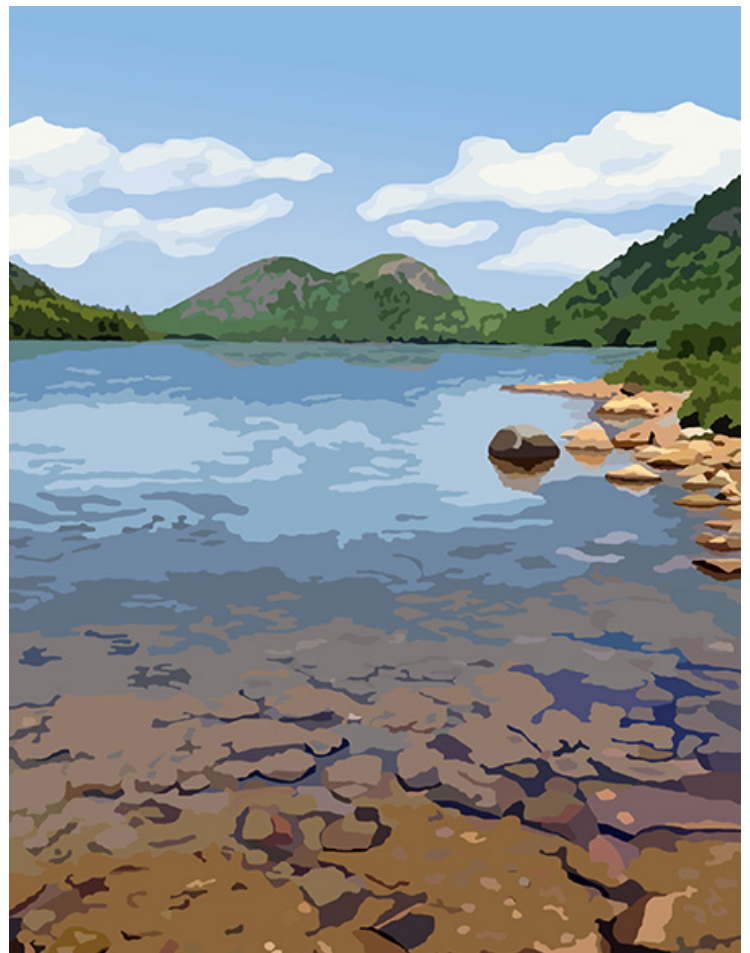

Lehoux Art offers two main lines of artwork: scenic Maine art and bird art. Both lines are available as a variety of products, including prints, cards, magnets, coasters, vinyl stickers, and more. In 2021, Lehoux Art plans to add some NH artwork as well. Stay tuned!
